

LAS FUERZAS ARMADAS REVOLUCIONARIO DE COLOMBIA EJERCITO DEL PUEBLO

A BRIEF HISTORY

LAUREN D. PEARCE

The Revolutionary Armed Forces of Colombia – People’s Army (FARC) is an organization rooted deep in the history of Colombia. Due to its long history, the FARC has played different roles in different time periods, and consequently is viewed by different people in vastly different ways. To some, the FARC is the hero of the commoner, to others a terrorist organization, and to others still, a narcotrafficking ring. In order to understand what the FARC is today, it is necessary to understand its history. The FARC is an organization that was born out of necessity, out of fear, and out of violence and has evolved in response to the ever-changing politics in Colombia. They are an organization that tried to negotiate with the Colombian government several times, only to be slaughtered upon reentry into society. They are an organization that protected villages from the brutal Colombian military during La Violencia. In its early years, the FARC was an organization formed to protect the citizens of Colombia, yet the modern FARC attacks military targets with zero concern for civilians in their way. The FARC of today is not the FARC of 1964.

The Founding of the FARC

The FARC was born out of the violence during and after La Violencia and the corresponding loss of faith in government. Referring to La Violencia, Pedro Marín, founder of the FARC, wrote, “The police and armed Conservatives would destroy the villages, kill inhabitants, burn their houses, take people prisoner and disappear them, steal livestock and rape the women. The goal of the Conservative groups was to inflict terror on the population”.⁹ In response to the violence at the hand of the military and paramilitaries, a teenager named Pedro Marín fled the Amazon and went into hiding in the Cordillera Central. There he began to form a guerrilla army of displaced Colombians. Tensions came to a head in 1964 when the Colombian Army set its sights on Marquetalia, a small town that had declared itself an independent republic during La Violencia. The Colombian army attacked the barely armed village of approximately one-thousand farmers. This attack sent the members of the community fleeing for the mountains, where a group of about fifty of them would officially unite to form the FARC. Shortly after, founder Pedro Marín adapted the nom de guerre Manuel Marulanda. Colomb5(. T)-5(a)-5(n hi)-4(s)JTJETBT1 0

supported by the military, had an even more brutal reputation. Children and teenagers in the countryside matured in an environment where the military was to be feared for their brutality and the guerrillas respected for their protection. In addition, the guerrilla-controlled areas historically have been areas of extreme poverty, which with the exception of military raids, received absolutely no support from the Colombian government. This combination of factors made it easy for the FARC to recruit guerrillas.

One author summarizes FARC ideology as, “The Colombian government is corrupt; the
